Fordson
TRADE MARK

We realize that to-day every wise farm owner thoroughly investigates the tractors that are most suited to his needs—looks up their records, the men who built them, and the way in which he will be cared for after his machine is bought. And in this way he gets the one machine best suited for his needs. That's just the message we would like to give you—how the Fordson was built to meet actual farming conditions, how it did that before it was put on the market; how it has upheld the name "Ford" among 110,000 Fordson owners; how we do not lose sight of our customers' best interests after the tractor sale is made.

The story of our service—our method of providing for and taking care of all "Fordson" owners' needs in our territory—is a vital consideration for you before you make your choice of machines.

All about the "Fordson" is a message well worth hearing—let us tell it to you in person.
